SUMMARY

Passionate B.Tech Computer Science engineering student with a solid foundation in C, Java, and Python. Strong problem-solving, leadership, and team coordination skills. Eager to contribute to impactful software projects and grow in challenging development environments.

SKILLS

- Basic understanding of programming languages: Python, C, Java, and SQL
- Strong team coordination and adaptability in fast-paced environments
- Event planning and management experience in academic and technical contexts

PROJECTS

Object Recognition for Visually Impaired

Jun 2025 – Present

Deep Learning Project

Developed a real-time object recognition and assistance system for visually impaired individuals.
Integrated YOLOv8 for object detection and implemented Text-to-Speech and haptic feedback for multimodal alerts.
Achieved over 90% detection accuracy with low-latency response in both indoor and outdoor real-world environments.

Plant Disease Recognition

Dec 2024 – Mar 2025

Deep Learning Project

Trained a Convolutional Neural Network (CNN) using the Kaggle PlantVillage dataset for accurate disease classification.
Achieved over 98% accuracy in detecting multiple plant diseases across various crop types.
Deployed the model via a web-based interface for real-time field-level diagnosis accessible to farmers.

EXPERIENCE

Web Development Intern

May 2023

AWS (in collaboration with IIIT)

Kottayam, Kerala

Built responsive and dynamic web applications during a hands-on internship.
Developed front-end interfaces using HTML, CSS, JavaScript and integrated backend services using Node.js and Express.
Collaborated with a team to deploy applications and presented progress during weekly review meetings.

Machine Learning and Artificial Intelligence Intern

Nov 2024 – Dec 2024

ICT Academy of Kerala

Online

Completed an internship focused on developing and deploying machine learning models for real-world applications.
Built and evaluated predictive models using Python, Scikit-learn, and TensorFlow for classification and regression tasks.
Participated in code reviews, feature engineering, and collaborative model improvement efforts.

EDUCATION

SCMS School of Engineering and Technology

Ernakulam, Kerala

B.Tech in Computer Science Engineering, CGPA:6.6

Nov 2022 – April 2026

St. Gregorios Senior Secondary School

Higher Secondary Education (CBSE)

Pathanamthitta, Kerala

Jun 2020 – May 2022

CERTIFICATIONS

Google Data Analytics Professional Certificate

Machine Learning and Artificial Intelligence Internship Certificate
